The Libertarian Party of Palm Beach County proudly endorses Paul Stanton for U.S. Senate

The Libertarian Party of Palm Beach County proudly endorses Paul Stanton for the U.S. Senate election in Florida. We believe that Paul is the leader we need for the State of Florida right now. Having served in the armed forces, he came home to witness the very freedoms he was told he fought for disappearing. After seeing the unnecessarily invasive airport screening, he peacefully protested by handing out literature to travelers and was later kicked out of the airport. He fought in court to win back his right to protest and continue the push for freedom.

Paul's abilities and his positive message for liberty have been recognized by endorsements from Gary Johnson, John McAfee, Darryl Perry, the late Dr. Marc Allan Feldman and by several other local affiliates in the Libertarian Party of Florida. He is the best candidate to promote the message of liberty to Floridians and the best candidate for U.S. Senate.
